

Booking System Sprint Planning Notes

Team: 6.TUES_6:30.6

Sprint: 2

Date: 01/09/2020

Attended:

Scrum Master: Sami Yildirim

Development team: Micheal Kolev, Liangyu Nie, Xiaying Wang

1. Things That Went Well

- Communication – Everyone knew what they were doing
- Mid-Sprint code check-in

2. Things That Could Have Gone Better

- Pushing to git more frequently
- Clearer responsibilities for github tasks

3. Things That Surprised Us

- The variety of react modules available

4. Lessons Learned

- Create a git branch for your user story at the start of the sprint
- Make responsibilities for git tasks clear at stand ups

5. Final Thoughts

- Keep biweekly meetings
- Create git branches earlier

Booking System Sprint Planning Notes

Team: 6.TUES_6:30.6

Sprint: 3

Date: 15/09/2020

Attended:

Scrum Master: Liangyu Nie

Development team: Micheal Kolev, Xiaying Wang, Sami Yildirim

1. Things That Went Well

- The division of work
- Everyone got their work done

2. Things That Could Have Gone Better

- We took on slightly more work than was comfortable
- Push to github more regularly
- Each feature should have its own branch

3. Things That Surprised Us

- Postman is useful
- We finished all work even with the midsemester break

4. Lessons Learned

- The use of postman
- Optimal sprint workload (too low previous sprint, too high on this one, hopefully just right next time)

5. Final Thoughts

- Good job everyone!
